OBJECTIVE

Enthusiastic Full Stack Developer fresher with hands-on experience building responsive web applications using React.js and integrating database systems such as MongoDB and SQL. Proficient in Python programming through full-stack training, with a strong foundation in writing clean, efficient code. Ready to leverage practical project execution and problem-solving skills to deliver scalable web solutions for challenging software development teams.

EDUCATION

B.E. Computer Science & Engineering Sri Shanmugha College of Engineering & Technology (CGPA - 7.80)	07/2021 – 06/2025
HSC Government Boys Higher Secondary School - Komarapalayam (Percentage - 80%)	06/2020 – 06/2021
SSLC Government High School - Katheri (Percentage - 76%)	06/2018 – 06/2019

TECHNICAL SKILLS

Frontend: React.js, HTML, CSS, JavaScript
Database: MongoDB, SQL
Tools/IDEs: VS Code, Git/GitHub
Programming: Python

PROJECTS

Quiz Application Live Demo	06/2025 – 07/2025
Roles/Description: Developed a responsive Quiz Application using React.js, implementing core quiz logic and state management for accurate scoring and seamless navigation Technologies used: React.js	
Learning Management System Live Demo	07/2024 – 06/2025
Roles/Description: Developed and maintained the responsive Frontend using React.js Technologies used: purely React, MongoDB	
Python Console Calculator GitHub	05/2026 – 05/2026
- Built an interactive command-line calculator supporting multiple arithmetic operations. - Implemented history management, input validation, and exception handling. - Practiced debugging, feature enhancement, and modular programming concepts.	

CERTIFICATIONS & INTERNSHIPS

- Web Development - IDM Tech Park
- Python Full Stack - QSpider
